

Innovation Transformation Sustainability

CREATE ,CONDUCT AND HIRE

Recruitment is time consuming process and quite expensive, being a technology company Nirmalya Labs nBoard an on-line test product which is being used for hiring of graduates from different parts of India. It's difficult to reach out every campus and get the right talent, using nBoard product, we can tap the right talent for our needs. nBoard is mobile friendly product and students can appear the test though Mobile and Web.

Traditional campus recruitment taken 3-4 days for each college, plus travelling to colleges and spending huge money for the same. Our objective is to hire engineers from different parts of India, students in final year can register in nBoard with necessary information, and login credential and the date of exam will be communicated through email and SMS. nBoard is enabled with rich and user-friendly features, to make it richer. Nirmalya Labs has been working religiously for making nBoard platform more user-friendly and feature rich.

KEY FEATUERS
